A Michigan Nursery Offering a Regular Assortment of Home Grown, Hardy

Ornamental Shrubs, Street and Ornamental Trees — **Northern Nursery Stock** — **Roses, Perennial Plants, Fruit Trees and Small Fruit**

Home . . .

is it the home of your dreams—the home you visioned when you started out on the glorious adventure of home-making—or in the daily round of ordinary affairs has it somehow become dull and commonplace—a home you've often longed to do something with—but not knowing just where to start.

Walk around your house with the critical eyes of a stranger. It is disappointing, somehow? Lacking, somehow, in those unexpected vitalizing touches that enliven and individualize, a commonplace house instead of reaching out to greet with a welcoming "lived-in" atmosphere?

"A house is not a home until it is planted"

and the trees and shrubs so necessary to a beautiful home not only add to the satisfaction of possession, but bring a large financial return should you want to dispose of your property. *So sharpen up the old lawnmower, plant some more trees and shrubs in the vacant corners and sit back and watch nature do the rest.*

Peonies

We offer a large assortment of the best varieties, in one and two year roots—not the usual small divisions as sent out by most nurseries.

NAMED PEONIES
- Candidissima—Creamy white ... 60c
- Delachei—Crimson purple ... 50c
- Felix Cruosse—Brilliant red ... 50c
- Festiva Maxima—Snow white ... 60c
- Queen Victoria—Creamy white ... 50c
- Triumph DeLille—Light rose-pink ... 75c
- Meissonier—Brilliant crimson ... 60c
- Dutchess DeNemours—Late snow white ... 75c
- L'Eclelante—Dark crimson ... 75c
- Livingston—Lilac rose ... 75c
- Aurora—Fine semi-double white tinged with pink ... 75c
- Dawn—A semi-double shaded red ... 50c
- Pink Nymphaea—Shade same as pink water lily, fine ... 50c

UNNAMED DOUBLE PEONIES in pink, red or white. Plants that we have misplaced the labels. Large fine clumps, 50c.

SINGLE PEONIES in the red shades. Very desirable for landscape effect or as cut flowers; clumps ... 35c and 50c

ROSES

Ramblers, Hardy Climbers and Climbing Tea Roses

Two-year No. 1 Plants

HYBRID PERPETUAL, No. 1 ... 60c
American Beauty, deep pink
Frau Karl Druschki, snow-white.
Gen. Jacqueminot, scarlet crimson.
J. B. Clark, large, light red.
Magna Charta, bright pink.
Margaret Dickson, white, pink center.
Marshall P. Wilder, cherry-colored.
Mrs. John Laing, clear pink.
Paul Neyron, dark, lilac-rose.
Prince Camille de Rohan, crimson.
Ulrich Brunner, carmine red.

CLIMBING ROSES ... 35c
American Pillar, crimson-pink
Climbing American Beauty, carmine

F. J. GROOTENDORST—A cross between Japanese Rugosa and Baby Rambler. Crimson everbloomer ... 60c

BABY RAMBLERS ... 50c

Dr. E. M. MILLS (New)—Hugonis Hybrid. Primrose color with pink suffusion ... 75c

RUGOSA ROSES ... 35c
Japan Rugosa, red
Japan Rugosa, white
Sir Thomas Lipton, double white

Dwarf Fruit Trees

Solve the problem of fruit growing in small areas. Very ornamental for the yard and garden.

Dwarf Apple

Perhaps no other fruit is attracting so much attention at the present time as Dwarf Apples, especially for garden and yard planting. They can be planted 6 feet apart and do well. They begin to fruit the second or third year, and bear abundant crops. The fruit is just as large, same flavor, etc., as that borne on the standard trees. The great advantage is the early bearing of fruit. The trees never get over 6 or 8 feet high. Very profitable, bear 4 to 6 bushels per tree.

We can supply the following choice dwarf kinds: Delicious, Grime's Golden, McIntosh, Wagener, Yellow Transparent.

Dwarf Pears

May be planted 6x6 feet, and they will begin bearing in a very few years. The Dwarf Pears are grown by budding on Quince stocks. *The following varieties are particularly recommended for cultivation. All are vigorous and handsome growers, hardy and productive:*

Seckel, Bartlett, Clapp's Favorite.

Try a dozen or more trees, and gather fruit from them in a very few years. Price, 3-foot trees, 50c.

Dahlias

Strong divisions, separate colors 10c each.
- NYMPHAEA—Pink
- ROYAL PURPLE—Purple
- STORM KING—White
- SYLVA—Pink
- J. F. JEWELL—Verigated red
- YELLOW DUKE—Yellow
- PRIDE OF CAL.—Large vivid red ... 25c
- MIXED DAHLIAS—Made up of above varieties but not labeled, per dozen ... $1.00

We are Headquarters for Gladioli

Our Gladioli are famous, and justly so, as there are no better bulbs grown than we offer. You will find our bulbs big and fat—just the kind to produce plenty of flowers. Remember our Gladioli are the finest in the market. They are plump bulbs which have never been used for cut flower purposes.

Prices—No. 1 sized bulbs, each 5c; doz. 50c; 100, $3.00—postpaid

ALICE TIPLADY—A grand, large vigorous saffron colored Primulinus. Extra fine. Strong grower. Defects none so far.

AMERICA—Too much cannot be said of this beautiful dainty pink tinted lavender.

EVELYN KIRTLAND—The flowers are a beautiful shade of rosy-pink, darker at the edges, fading to shell-pink at the center, with brilliant scarlet blotches on lower petals. Entire flower showing a glistening sparkling lustre.

GRETCHEN ZANG—A most beautiful soft shade of pink, blending into deep salmon on the lower petals. Approaches the brilliant coloring of the Beaute Poitevine Geranium.

HALLEY—A delicate salmon-pink.

HEREDA—The blooms are pure mauve, glistening and clear.

IDA VAN (Kunderd)—Orange-red of brilliant tint. Flowers large and wide open. Six to eight out at one time. Spike straight and strong, showy, attractive and beautiful.

MRS. FRANK PENDELTON (Kunderd)—The petals show beautiful bright rose-pink on a pure white ground, contrasting in a most striking way with the deep rich blood-red blotch on the lower petals.

MARSHAL FOCH (Kunderd)—Many giant flowers open at a time on very strong stem and plant. Color of finest salmon-pink. Almost self-color.

MRS. FRANCIS KING—A most beautiful "Besnard shade" of flame pink.

NIAGARA—A light Crocus or primrose-yellow faintly touched with lilac-rose lines; faintly suffused lilac-rose by reflection from outer walls of petals.

PANAMA—A perfect Hermosa-pink in color with wide open wax-like flowers; one of the best of the clear pinks.

PEACE—Giant white flowers with lilac feathering in throat of two of the petals.

PRINCE OF WALES—Golden-salmon melting to throat of primrose-yellow, a color tone that either in sunlight or under electricity is extremely beautiful.

PRINCEPINE—One of the most brilliant scarlet reds; it is a very vigorous grower. Well open large flowers and of a fine velvety substance. The throat is glistening white.

SCHWABEN—A clear crimson-yellow with aster-purple tongue on lower petals. Buds sulphur yellow.

Gladiolus in Mixture

Persons who do not plant mixtures—no matter how many of the named kinds they plant—will miss much of the pleasure of this grand flower. In color every magnificent and gorgeous combination conceivable is represented. The richest of self-colors, blotches, etc., finest white and pastels of every tint and color.

100—$1.50, postpaid

Why experiment with stock grown under strange and unusual conditions when you can have acclimated trees and shrubs fresh dug and ready to start growing, and at a price below the *usual retail figure for plants of the same grades.*

Hardy Flowering Shrubs in a Great Variety

The planting of ornamental shrubs is very largely on the increase, and this is as it should be, for with a good selection, the lawn can always be beautiful. They are mostly of medium size, enabling one to plant a great variety in a small space, and offer a wonderful assortment of foliage from the darkest green and purple to light orange and silver tints. These, in addition to the great variety in the blossoms, all unite to keep up a never-failing interest. The following list will be found to contain all of the well known standard varieties as well as the best of the newer introductions.

We are devoting more land every year to the growing of Deciduous Shrubs for discriminating landscape trade and, with the very favorable growing season that we had during the past summer, we believe that we are offering for shipment during the coming spring season one of the best stocks of Shrubs that we have ever had to offer. They have all been given plenty of room in the row and are thrifty, bushy and well grown.

Our list includes all the varieties adapted to this locality. We take extra care in the growing and marketing of our shrubs. Prices are given for three sizes as Small, Medium and Large plants, but our customers will find our grades very liberal as to the sizes.

Prices—Two year plants (small) ... 25c
Three to four year (medium) ... 35c
Four to five year (large) ... 50c

ALTHEA (Rose of Sharon)—Handsome, well-known shrubs producing their large single or double flowers in late summer when few other shrubs are in bloom. They are very ornamental also. 2 ft., 25c; larger sizes 35c and 50c

TREE ALTHEA ... 50c

ARALIA—Pentaphylla. Strong growing, and making a small tree in time. Abundant foliage of rich, glossy green. Grows in most difficult situations and is suitable for rocky slopes. Good for dense grouping. Does well in shady places.

ARALIA SPINOSA—Devil's walking stick 50c

FLOWERING ALMOND — Double rose-pink flowers in early spring.

BARBERRY—(Japanese). Well known shrub much used as hedge and in mass planting. We have a large stock of this popular shrub in all sizes.

BECHTEL'S FLOWERING CRAB. Flowers early in Spring. Large double, pink blossoms completely cover tree. Look like small roses. The most beautiful flowering crab. Very fragrant. Price, 2 to 3 feet, 60c; 3 to 4 feet, $1.00.

FLORIBUNDA CRAB—A new variety from South Dakota. Abundance of small pink flowers early in Spring—3 to 4 feet ... 60c

BUTTERFLY BUSH, (Buddleia)—A shrub perennial. Sometimes called summer Lilac. Seems to have an attraction for butterflies. Blooms from August until frost. Our plants are twice transplanted which means they are well rooted ... 35c

CALYCANTHUS, (Sweet Scented Shrub)—Well known, because of its exquisitely fragrant chocolate colored flowers. Twigs are aromatic when bruised or broken.
18 to 24 inches ... 35c
12 to 18 inches ... 25c

CYDONIA JAPONICA—Japan quince. The old-fashioned "Burning Bush." Bright scarlet flowers in early spring ... 35c

CARAGANA ABORESCENS — Siberian Pea. Bright green leaves. Yellow blooms in clusters in late spring ... 35c

CURRANTS FLOWERING
Alpine, Mountain Currant. An ideal plant for hedge. Very hardy and holds foliage after frost. Stands any amount of shearing and shows no shear marks. 12 to 15 inches ... 25c
Yellow Currant—Fragrant yellow flowers in May ... 25c

DEUTZIAS—Fine ornamental shrubs adapted to all soils. White flowers shaded with pink in early June.
Gracilis, Slender Deutzia. A very dwarf Deutzia. A good forcing variety. Pure white double flowers produced in racemes. 12 to 18 inches ... 25c
Lemoine, (Lemoine Deutzia). A spreading shrub attaining the height of 3 feet with very showy flowers. Very graceful in appearance ... 25c and 35c
Pride of Rochester. Strong growing shrub. Very profuse bloomer. Large double white flowers tinged pink ... 25c, 35c and 50c

DOGWOOD—Showy shrubs for border or screen planting. Scarlet foliage in fall.
Siberica—Grows 6 to 10 feet high. Blood-red branches, creamy white flowers.
Florida—White flowering Dogwood.

GOLDEN ELDER—A beautiful, golden leaved bush, which deserves a place in every shrub border, or as a specimen. Rapid grower, often attaining a height of 6 to 10 feet but may be pruned. The golden leaves make a delightful contrast with green of other shrubs, but it also bears large, flat clusters of blossoms, followed by purple berries. Plant in sunny place. Price, strong plants ... 35c and 50c

CUT-LEAF ELDER. Great handsome cymes of delicate, fragrant flowers in June and July followed by large clusters of fruit. The foliage is deeply cut and has a lacy appearance ... 25c

EUONYMUS
Americanus, (Brook Euonymus). An erect, tall shrub with slender green branches. Its flowers are rather inconspicuous, but in late summer the fruits become very showy because of their lobed and warty seed coats and scarlet seeds
2 to 3 feet ... 35c
3 to 4 feet ... 60c
Atropurpureus (Purple leaf Euonymus) A native of the middle west and one of the best Euonymus because of its abundance of large scarlet fruit, produced in yellow lined capsules ... 60c
Europeaus, (European Burning Bush). Small tree to twenty feet, with brilliant yellow and scarlet fruit in autumn completely covering the tree. 2 to 3 feet ... 60c

EXOCHORDA, (Pearlbush)
Grandiflora, Common Pearl Bush. Dazzling white flowers in May. Plant takes its name from the flower when in the bud. Prefers a moist soil.
3 to 4 feet ... 60c

FRINGE—PURPLE, (Rhus Cotinus). Feathery purplish flowers in June and July giving a smoky appearance. Very rank grower.
3 to 4 feet ... $1.00
18 to 24 inches ... 60c

KERRIA
Japonica. A very desirable shrub of spreading habit, bearing large yellow flowers in June. Effective for massing. Does best in partial shade. 18 to 24 inches ... 25c
White Kerria. A handsome, distinct and useful shrub. Becomes five feet tall; branches [illegible]. Flowers white, an inch across. Black pellets throughout the winter, 3 to 4 ft. ... 35c

HYDRANGEA—One of the most beautiful and satisfactory shrubs in cultivation.
Arborescens. Sometimes called Hills of Snow. This is one of the most showy, white blooming shrubs of mid-summer. The flowers are like gigantic snowballs and produced in great profusion ... 35c and 50c
Paniculata Grandiflora, (Peegee) The large showy panicles of this shrub are much admired in late summer. At first they are of creamy white, gradually fading into beautiful rose tints, then into purple, bronzy green and brown. Very good for winter bouquets.
Paniculata Grandiflora, Tree Form. Same as above variety, only grown in standards, $1.00

HYPERICUM—Prolificum (Shrubby St. John's Wort). A bushy, low-growing shrub with many flowers in mid-summer. Useful in border or where low growth is wanted.
18 to 24 inch ... 35c

HONEYSUCKLE
The bush Honeysuckles are upright and bushy, with small fragrant flowers, followed by showy berries that will last through the Fall. They make very desirable and attractive hedging, and are also good in shrub plantings, or planted singly as specimens.
Bella Albida. A handsome hybrid of strong growth, with white, sweet-scented flowers and bright red berries.
Fragrantissima. The earliest to bloom, with small pale pink flowers. The leaves are bright green and in sheltered situations last nearly all winter.
Morrowi. One of the handsomest. Grows 5 to 6 feet high, with wide spreading branches with especially good foliage. Flowers white. Can be trimmed and made into a compact hedge. Bright red berries lasting into late Fall.
Tatarica (Pink Tartarian Honeysuckle). A tall shrub often attaining 10 feet, and blooming in May with small, light pink flowers.
Tatarica Alba (White Tartarian Honeysuckle). Similar to the Red Tartarian, but with white flowers.
Prices of All Varieties of Honeysuckle:
18 to 24 inch ... 25c
2 to 3 feet ... 35c
3 to 4 feet ... 50c

HAWTHORN—Showy pink and scarlet flowers —early, can be trained as tree or shrub—2 to 3 feet ... 60c

FALSE INDIGO—Tall shrub with spikes of violet flowers in June.

FORSYTHIA
Fortunei (Golden Bell). A grand shrub becoming 8 to 10 feet tall. Leaves dark green, lustrous, holding late. Branches arching and bearing throughout their length in early spring, clusters of golden yellow blossoms.
3 to 4 feet ... 50c
2 to 3 feet ... 35c
18 to 24 inches ... 25c

HIGH BUSH CRANBERRY
(Viburnum Opulus). A magnificent shrub of upright and spreading form, with smooth, light grey branches. Produces small white flowers which are borne in broad, flat clusters surrounded by a ring of large, sterile flowers. These are followed by very showy, scarlet berries. Grows 8 to 10 ft. high. Heavy plants, each ... 75c

INDIAN CURRANT, or Coralberry. Graceful, medium sized shrub. Bears an abundance of large, dark red glossy berries which remain on through the Winter. Price, heavy bushes, each ... 35c

LILAC
Common Purple. One has to travel far to find anything that can outclass the old-fashioned Purple Lilac for sheer attractiveness, when in early Spring its branches are a mass of gorgeous bloom and solid color, filling the air with its rich fragrance.
White. The same as above, only with pure white flowers.
Rothomagensis (Chinese Lilac). Of strong, vigorous growth, attaining a height of 12 feet, with small, narrow leaves and fragrant flowers which are deep reddish lilac and borne in long, loose panicles.
Persian Purple. A decided improvement over the common lilac. A shrub with slender, arching branches, attaining a height of five to ten feet. The foliage is small, the flowers bright purple. Blooms in May and June. A much more profuse bloomer than the common. Prices of the above varieties:
18 to 24 inches ... 35c
2 to 3 feet ... 50c

FRENCH BUDDED LILACS
The following named French varieties have been selected from a long list and we can recommend this list without reservation to our customers
Named varieties 2 to 3 feet (bush form) ... $1.00
Named varieties 12 to 18 in. (bush form) ... 60c
D—Double. S—Single.
Chas. X., s reddish-purple
Congo, s wine red
Michael Buchner, d pale lilac
Pres. Grevy, d light blue.
S. de Ludwig Spaeth, s purple.

ROSA ACACIA—Branches covered in late spring with pendulous pea-shaped rose-colored flowers.

PURPLE LEAF PLUM—Very desirable for the dark purple foliage through the Summer. Fine for planting with other shrubs to bring out the colors.
Pissardi (Purple Leaf Plum). A very handsome small tree. Foliage purple. Pinkish pink flowers in Spring harmonize in color with foliage. One of the best purple-leaved trees. 2 to 3 feet ... 60c
Newport and Cistena. Fine new varieties from the Minnesota Experiment Station ... 60c

SYRINGA—(Mock Orange). Generally upright growing shrub with white flowers, usually single, sometimes half-double. The foliage is attractive at all seasons and the shrub is of great beauty when in bloom.
Coronarius (True Mock Orange). Flowers are small, single, of delicious fragrance. Reaches 8 to 10 feet ultimately.
Gordonianus. Large, white flowers appearing later than most varieties, therefore very valuable as lengthening the flowering season. Grows 10 to 12 feet high.
Grandiflorus. Flowers are large, white; leaves large. One of the leading varieties for specimen planting. Grows 8 to 10 feet high
Mont Blanc. Noted for its great profusion of very large, fragrant blooms literally covering the plant. Dwarf in habit.
Nivalis. Free flowers. Large, single white flowers. Strong grower.
Aurea, (Golden Leaved Mock Orange). Very dwarf, foliage bright yellow. Flowers white.
Bouquet Blanc. One of the newer Philadelphus. Blooms freely in May and June. Very fragrant ... 50c
Prices of all above varieties:
18 to 24 inches ... 25c
2 to 3 feet ... 35c
3 to 4 feet ... 50c
Virginal. A very beautiful new variety. Flowers are larger and more fragrant. Has long blooming season. Flowers in dense clusters. The bush grows moderately tall. Compact habit. Good foliage.
18 to 24 inches ... 50c
2 to 3 feet ... 75c

SNOWBERRY, (Symphoricarpos)
Coralberry—A native shrub, becoming 3 feet high. Highly ornamental when loaded with its great abundance of coral red berries that remain on the branches all winter.
3 to 3½ feet ... 35c
Common White Snowberry—Upright in habit, becoming 3 to 4 feet tall. Blooms profusely, and in late summer and fall its berries become of snow white color. Very ornamental.
3 to 3½ feet ... 35c

TAMARIX (Africana) Tall shrubs, eight to ten feet tall, fine feathery foliage like the Juniper. Small, unusually bright pink flowers, in slender racemes in April and May. Splendid for planting in damp or other places.
Hispida. This is the best of the Tamarix. Pink flowers produced in dense racemes in July and August. Foliage of silver color.
4 to 5 feet ... 75c
18 to 24 inches ... 25c

VIBURNUM—This group of shrubs is gaining more prominence every year. Practically all varieties produce fruit in abundance, which hangs on all winter. Very much liked by birds.
Americanum, (American Cranberry Bush). Handsome native shrub, very showy in fruit which begin to color in mid-summer and holds well throughout the winter ... 75c
Dentatum, (Arrowwood). A bush shrub with upright branches. Leaves heart-shaped, coarsely toothed; flowers profuse, in flat top cluster, white, followed by very showy black berries.
Lantana, (Wayfaring Tree). One of the prettiest foliage Viburnums. Leaves of mullein like appearance. Flowers in flat clusters producing large bunches of black fruit ... 50c
Tomentosum, (Doublefile Viburnum). Flat heads of single white flowers in June. Foliage very attractive.

SNOWBALL (Viburnum Opulus Sterile). The well known, common snowball. An old favorite, and without doubt one of the best of the flowering shrubs. All of the flowers are sterile and radiant, and appear in numerous, compact balls. As specimen plants the snowballs have no rivals, and for grouping and massing make possible many charming effects, each ... 35c and 50c

JAPANESE SNOWBALL—The finest of the snowballs—2 to 3 feet ... 75c

WEIGELA
Rosea, (Pink Weigela). One of the most free flowering, growing about 6 feet tall, and a mass of brilliant pink flowers in late spring. This grand shrub is one of the most beautiful of all spring blooming plants when it is in bloom, and the most satisfactory for planting to grow of any shrub, having brightly colored flowers.

WHITE FRINGE—Same as purple fringe except in color of bloom, each ... 75c

YUCCA filamentosa. Fine, strong plants; a stately decorative plant, with immense spikes of large white flowers; fine for the garden or lawn ... 35c

SPIREA—Prices—25c, 35c, 50c

The most popular of all the shrubs. We grow this shrub in some 12 different varieties and by the thousands and can supply your wants for any amount.

A. Waterer—Crimson everblooming, dwarf type.
Arguta—Early white, medium size.
Billardi—Pink colored plumes, mid-season, tall.
Billardi Alba—White Billardi.
Callosa Alba—Dwarf white, early.
Callosa Froabeli—Dwarf pink. Foliage tinged with red. Fine. Better than A. Waterer for this locality.
Callosa Rubra—Foliage tinted with red early in season. Dark pink blossoms. Medium tall.
Opulifolia—Ninebark. Creamy white blossoms. Seed pods red. Showy.
Opulifolia Aurea—Golden Spirea. Foliage bright yellow, changing to golden bronze in fall. Snowy white flowers.
Prunifolia—True Bridal wreath. Abundant double white flowers in early spring ... 35c
Thunbergii—Snow Garland. Early dwarf white. Leaves small, bright green.
Van Houttei—The most popular of all the shrubs, and the finest and most beautiful of the spireas. A fine foliaged plant and covered about Decoration Day with thousands of small white flowers. We have a large supply of this popular shrub in all sizes.

Strawberries

We have been obliged to make a radical reduction in the varieties of strawberries we grow, owing to the demands of our shrubs for more room. The three varieties we list are all standard varieties and undoubtedly 90 per cent of all planting would be of the kinds we list.

DR. BURRILL—Of excellent quality. Plants are strong and vigorous. We recommend the Dr. Burrill for either home garden or commercial growing.

GIBSON—Our Best Strawberry—As a money maker we know the Gibson has no superior. The Gibson berry is a beautiful dark red, of excellent quality and flavor, firm, and will stand shipping as well as any variety we know.

SENATOR DUNLAP—Mid-season. This is the "universal strawberry" of the June-bearing sorts. It is the most widely planted and the best all-round berry in its class. Senator Dunlap will stand more drought and more wet weather than any other variety in its class. It is a sure cropper and will thrive in nearly all soils.

All varieties offered are perfect flowering. Price: 100—60c; 1000—$5.00

Collection No. 5—$2.00 Postpaid

350 Strawberry Plants
100 Dr. Burrill
150 Dunlap
100 Gibson

To Our Automobile Friends

In the foregoing we have listed our general line of shrubs and plants, most varieties carried in sufficient amounts to meet the usual season's demand. We also grow a number of kinds for trial, which we have in small quantities. If you live in driving distance of our nursery, you are invited to drive over and make your selections from the plants as they grow on the ground. We have many shrubs that we do not grow in sufficient amounts to warrant us in listing them in a catalog. Then we have many specimen plants, of the varieties we are growing, together with a planting of Evergreens in all sizes. Stock of some varieties is limited, and as the value of the plants depends mainly on the individual specimens we are not prepared to quote a general price for several varieties. A personal selection at the nursery will prove the most satisfactory way.

Hedge Plants

PRIVET
Amoor River Privet, North—We can supply this popular hedging privet in any quantity and recommend it in preference to any other variety owing to its extreme hardiness. 18 to 24-inch size, 15c each; 100, $12.00; 2 to 3 feet, 20c each; 100, $15.00.
Lodense—A dwarf variety valuable for low growing hedge or for porch boxes ... 20c
Regal's Privet—Fine for specimen plants or for an untrimmed hedge. Large specimens, each ... 35c and 50c

BARBERRY, JAPANESE, (Berberis)
Thunbergi. As an ornamental shrub it cannot be surpassed. Foliage very luxuriant and berries decorative throughout the winter. As an ornamental hedge either trimmed or untrimmed it has no superior. Its prickly branches make the hedge impassible for man or animals. This variety is not affected by wheat rust.
2½ to 3 feet, (3 year heavy) ... 50c
2 to 2½ feet, (3 year heavy) ... 35c
15 to 18 inches, (2 and 3 yrs.) ... 25c
12 to 15 inches, (2 and 3 yrs.) ... 20c
Thunbergi, Atropurpurea (New Japanese Red Leaved Barberry). Too much cannot be said of this new Barberry. It is the best contribution to the horticultural world in the last ten years. It is described one hundred per cent by its name.
1 year, 15 to 18 inches ... 50c

OTHER HEDGE PLANTS—Alpine Currant, Honeysuckle, Arilla and the Spireas. Special prices when wanted in quantity.

Tune in on our prices for quality plants. We cut out the expense "overhead" static.

GEORGE H. SCHENCK

ELSIE MICHIGAN

"Where Your Dollars Have More Cents"

Hardy Plants---Perennials

We earnestly solicit your business in Perennials. We are sure a trial order will make you a regular customer.

BOLTONIA, False Chamomile ... 15c
Asteroides, produces white aster-like flowers, September, 5 ft.
Latisquama, same as Asteroides only flowers are pink.

BUDDLEIA, Butterfly Bush or Summer Lilac. Twice transplanted, well rooted. This is really a herbaceous shrub but is classed as a perennial, because it kills to the ground. Produces lilac flowers from July until frost, which attract multitudes of butterflies. A Perennial Garden is not complete without it ... 35c

CHRYSANTHEMUM MAXIMUM, (Shasta Daisy)
Alaska, large white flowers, June to August, 2 feet
Hartje and Elder, an improved strain for Decoration Day flowers, May and June, 2 ft. 10c
Clumps ... 20c

DELPHINIUMS ... 15c
Belladonna—The best blue cut flower. Light sky blue.
Bellamosa—Dark blue.
Gold Medal Hybrids—Choice mixed English seed from selected named sorts; tall varieties.

BLEEDING HEART, large plants ... 50c
(Dicentra Spectabilis). The old-fashioned Bleeding Heart which has so long been a favorite. A hardy perennial with heart-shaped rose-colored flowers in drooping spikes. Beautiful finely cut foliage.

GYPSOPHILA (Baby's Breath) ... 15c
Paniculata—2-3 feet. July-August. Small flowers on branched stem; so thick as to give the plant a white lace-like effect.

HOLLYHOCK ... 15c
Allegheny Single Mixed, various colors from pure white to a deep maroon, July, 5 feet.
Double Varieties, mixed colors, red, rose, white and yellow, July, 4 feet.

HARDY CHRYSANTHEMUMS
Pink, white, yellow, bronze ... 10c

ORIENTAL POPPY
Oriental Poppies are best planted August and September, for spring planting is not certain. Our plants have branched roots and are much easier to transplant than if they had just a single tap root ... 10c

PHYSALIS FRANCHETTI (Chinese Lantern Plant)—Flowers yellow with dark center; produces balloon-like husks which turn bright red when ripe and resemble Chinese lanterns ... 15c

PHYSOTECIA (False Dragonhead) ... 15c
Virginica—Dense bushes with spikes of delicate pink tubular flowers; 3 feet.
Virginica Alba—Same as above but white.

PERENNIAL SWEET PEA ... 15c
This is one of the Perennials that can be used as a vine. Excellent for covering trellis. These charming flowers look very much like its annual relative, the Sweet Pea, but are larger and more wax-like. Blooms throughout the summer from June to August.

POLYGONUM cuspidatum (Giant Knotweed). Grows to 12 feet high; makes a splendid group for tropical effect ... 25c

PLATYCODON (Balloon Flower) ... 15c
Mariesii—Deep blue flowers, dwarf. July to October.
Mariesii Alba—White flowered form of the above.

YUCCA Filamentosa (Adam's Needle or Bear Grass). A striking plant with stiff, swordlike, evergreen foliage. Flowers are borne on long stems, 4 to 6 feet tall that branch for several inches near the top. These branches produce numerous showy, creamy white blossoms. Useful and beautiful in all plantings.
1 year ... 25c
2 year ... 35c

Iris

GERMAN IRIS—10c each, dozen, $1.00.

MIXED GERMAN IRIS—In good assortment, 60c dozen, 100 for $5.00.

JAPANESE IRIS—15c each. $1.50 dozen. Six fine varieties running in color from white to deep purple.

Hardy Phlox

The beauty and usefulness of these grand border plants give to them a deservedly first place among hardy plants. For cutting, their large trusses go a long way in floral decoration. In color they range from pure white to the richest crimsons and purple, and from soft rose to bright coral-red, all having a delicate fragrance.

15c Each

- AMAZON—White
- BEACON—Cherry red.

Eldorado Blackberry

This extra fine Blackberry has long been considered the leading commercial sort and is also a desirable berry for home use as the berries are large, with very few seeds, jet black color and the flavor is sweet. 25 for ... $1.00

Forest and Shade Trees

Shade trees are always an attractive setting for the house. They are necessary, too, to add comfort to the hot summer days. The owner of farm or city property that is well planted with shade trees, windbreaks and shrubbery finds himself possessed not only of a beautiful home, but one that has increased its value many times the original cost of the trees and plants.

EUROPEAN MOUNTAIN ASH—(Sorbus Aucuparia). A hardy tree, of medium size, smooth bark; head dense and regular. Covered from July until Winter with large clusters of bright red berries.
3 to 4 feet ... 50c
5 to 6 feet ... 75c

ACER-MAPLE (Silver Maple). A very rapid growing tree of graceful, spreading habit, with leaves light green above and silvery beneath. Desirable for lawn or street planting.
8 to 10 feet ... $1.50

BOX ELDER (Ash-Leaved Maple). A very rapid growing tree with widely spreading branches. The leaves are light green. Very effective in mass planting, 6 to 8 feet ... 75c

NORWAY MAPLE—One of the best shade trees for all purposes, whether in the lawn or by the roadside; a favorite street tree. Grows to large size and is of neat, compact habit with a round head. 6 to 8 feet ... $1.50

RED OR SCARLET MAPLE—Of excellent habit, with scarlet flowers in early Spring; dense foliage, turning to gorgeous colors in Autumn; will thrive in wet situations.
6 to 8 feet ... $1.50

HORSE-CHESTNUT (Yellow Buckeye). A large tree of slow growth and very attractive in its roundish form. Large leaves that are conspicuous in Summer. Flowers in May. A beautiful tree.
3 to 4 feet ... 60c
4 to 6 feet ... 75c

AILANTHUS Glandulosa (Tree of Heaven). Extremely rapid grower, open-headed tree; valuable for street planting as it stands smoke and dust well. Fruit clusters often very highly colored. 3 to 4 feet, 35c; 4 to 6 feet, 50c.

BETULA-BIRCH Alba (White Birch). The White Birch is a small or medium sized tree with white bark and small, dark green leaves that turn pale yellow in the Fall, and is attractive for its conspicuous bark in Winter. This Birch will thrive in dry soil.
4 to 6 feet ... $1.00
6 to 8 feet ... $1.50

SPECIOSA (Western Catalpa). A large, handsome tree with immense, tropical-looking leaves and big clusters of white flowers with purple centers. Is very quick growing and makes a fine tree for the lawn.
4 to 5 feet, branched ... 35c
5 to 6 feet, branched ... 50c
6 to 8 feet, branched ... 75c

CERCIS-REDBUD Canadensis (Rosebud or Judas Tree). A small tree, branching irregularly from the ground, spreading in habit, with smooth, heart-shaped leaves; in early Spring has small pink flowers. A tree for the lawn.
3 to 4 feet ... 50c

CATALPA Bungei (Umbrella Catalpa). To make these, we bud or graft on straight stems the dwarf variety which makes many short, spreading branches and a roundish head without adding to the height. The foliage is very pleasing and the effect obtained when planted in pairs along walks and driveways or entrances is greatly admired.
6 to 7 feet, 2-year heads ... $2.50
7 to 8 feet, 3-year heads ... $3.00

CHIONANTHUS-FRINGE TREE — Virginica (White Fringe Tree). A large, very ornamental native tree-like shrub, covered in early April with pure white flowers in long, fringelike effect. A shrub of unusual beauty.
2 to 3 feet ... 75c

LIRIODENDRON-TULIP TREE Tulipifera (Tulip Poplar). A large and stately tree suitable for lawn or avenue planting. Quick growth, making a compact, pyramidal head. The leaves are dark green turning to yellow in the Fall. Has greenish yellow flowers shaped like a tulip.
4 to 6 feet ... 75c
6 to 8 feet ... $1.00

MORUS-MULBERRY—Alba tatarica (Russian Mulberry). A very hardy, fairly low-growing tree with a shapely, round head and bearing quantities of small, sweet berries.
3 to 4 feet ... 25c
4 to 6 feet ... 35c

WALNUTS—Japan Walnut (Juglans Sieboldiana). The tree is very handsome; has large spreading top. At three years of age the trees commence to bear. The fruit is shaped like the Butternut; shell thicker than that of the English Walnut. Hardy in all parts of the country. 8 to 10 feet ... $1.50

WILLOW—"Niobe" A most beautiful form of the European Golden Willow introduced to America by Dr. N. E. Hansen, horticultural explorer. Upright grower from 10 to 20 feet in height. 6 to 8 feet ... 75c

ULMUS-ELM—Vase and Moline Elms. Two Varieties of our American Elms that grow a better shaped tree than the native elms. Fine for street planting and specimen trees.
5 to 6 feet ... $1.00

Our Broadcaster!

We present herewith a list of the Nursery Stock we will have to offer for this year's Spring and Fall trade. All the stock we offer is young, thrifty, well-grown and first class in every way.

Our method of fresh digging and shipping the same day of nursery stock enables you to supply yourself with trees, evergreens and plants that are full of vigor and life.

It costs us more money to freshly dig all orders at shipping time than compared with the old method of digging nursery stock in the fall and early winter and packing the products in the storage cellars ready for spring shipments. But through actual experience we have found that customers are better satisfied with freshly dug nursery products than storage stock.

Our stock is all very carefully dug, so as to save all of the small roots possible, and graded to the highest standards. Plants are exposed to the air as little as possible and packed under cover. Our methods of grading and handling are certain to please and we know that you will find our stock of the best and our prices for the different sizes are below those of the large catalog nurserymen.

This price list is our only salesman for this season. On some items where wanted in quantity, *we can quote lower prices and we can always meet the competition of reliable firms.*

Collection No. 1—Value $6.50
